## SECTION I

### INTRODUCTION

#### 1. SCOPE

This joint Army and Air Force manual lists repair parts and special tools, required for the performance of organizational, intermediate (field), direct and general support and depot maintenance of the Generator set. The following paragraphs are keyed to applicable users. All users should read paragraph 4, Special Information prior to using this manual.

#### NOTE

**(Army) Repair parts listed represent those authorized for use at indicated maintenance levels and will be requisitioned on an "as required" basis until stockage is justified by demand in accordance with AR 710-2.**

#### 2. GENERAL

This Repair Parts and Special Tools List is divided into the following sections:

a. (ALL) Repair Parts - Section II. A list of repair parts is authorized for the performance of maintenance at the organizational, intermediate (field), direct support, general support and depot level in figure and item number sequence.

b. (ALL) Special Tools, Test and Support Equipment - Section III. A list of special tools, test and support equipment authorized for the performance of maintenance at the organizational, intermediate (field), direct support, general support and depot level (Not applicable).

c. National Stock Number and Reference Number Index - Section IV. A list of National Stock Numbers in ascending numerical sequence followed by a list of reference numbers appearing in all the listings, in ascending alpha-numeric sequence, cross-referenced to the illustration figure number and items number.

#### 3. EXPLANATION OF COLUMNS

The following provides an explanation of columns in the tabular lists in Sections II and III.

a. (ALL) Illustration. (Column 1) this column is divided as follows:

(1) Figure number. (Column 1a) indicates the figure number of the illustration on which the item is shown.

(2) Item number. (Column 1 b) indicates the callout number used to reference the item on the illustration.

b. (ALL) Source, Maintenance, and Recoverability Codes (SMR), (Column 2).

(1) Uniform Source Codes applicable to all Military Services. GENERAL: Source codes are assigned to support items to indicate the manner of acquiring support items for maintenance, repair, or overhaul of end items. Source codes are entered in the first and second positions of the Uniform SMR Code format as follows:

| <u>Code</u> | <u>Definition</u>   |
|-------------|---|
| PA          | Item procured and stocked for anticipated or known usage.   |
| PB          | Item procured and stocked for insurance purposes because essentiality dictates that a minimum quantity be available in the supply system.   |
| PC          | Item procured and stocked and which otherwise would be coded PA except that it is deteriorative in nature. Support item, excluding support equipment, procured for initial issue or outfitting and stocked only for subsequent or additional initial issues or outfittings. Not subject to automatic replenishment. |
| PE          | Support equipment procured and stocked for initial issue or outfittings to specified maintenance repair activities.   |
| PG          | Item procured and stocked to provide for sustained support for the life of the equipment. It is applied to an item peculiar to the equipment which because of probable discontinuance or shutdown of production facilities would prove uneconomical to reproduce at a later time.                                   |
| KD          | An item of depot overhaul/repair kit and not purchased separately. Depot kit defined as a kit that provides items required the time of overhaul or repair.  |
| KF          | An item of a maintenance kit and not purchased separately. Maintenance kit defined as a kit that provides an item that can be replaced at organizational or intermediate levels of maintenance.   |
| KB          | Item included in both a depot overhaul/repair kit and a Maintenance kit.  |
| MO          | Item to be manufactured or fabricated at organizational level.  |
| MF          | Item to be manufactured or fabricated at intermediate maintenance levels.<br><br>Air Force - Intermediate (*)<br>Army - Direct Support (*)  |
| MH          | Item to be manufactured or fabricated at intermediate maintenance levels.<br><br>Air Force - Intermediate (*)<br>Army - General Support (*)   |
| MD          | Item to be manufactured or fabricated at depot maintenance level.   |

| <u>Code</u> | <u>Definition</u>   |
|-------------|---|
| A O         | Item to be assembled at organizational level.   |
| A F         | Item to be assembled at intermediate maintenance levels.<br><br>Air Force -Intermediate (*)<br>Army - Direct Support (*)          |
| A H         | Item to be assembled at intermediate maintenance levels.<br><br>Air Force - Intermediate (*)<br>Army - General Support (*)        |
| A D         | Item to be assembled at depot maintenance levels.   |
| X A         | Item is not procured or stocked because the requirements for the item will result in the replacement of the next higher assembly. |
| X B         | Item is not procured or stocked. If not available through salvage, requisition.   |
| X C         | Installation drawings, diagram, instructions sheet, field service drawing, that is identified by manufacturer part number.        |

**NOTE**

**For USAF and the USA Safeguard Program, only Code "F" will be used to denote intermediate maintenance. On joint programs use of either code F or H by the joining service will denote intermediate maintenance USAF and the USA Safeguard program.**

(2) Uniform Maintenance Codes applicable to all Military Services: GENERAL: Maintenance Codes are assigned to indicate the levels of maintenance authorized to USE and REPAIR support Items. The maintenance codes are in the third and fourth position of the Uniform SMR Code Format.

(a) USE (THIRD POSITION): The maintenance code entered in the third position indicates the lowest level maintenance level authorized to remove, replace, and use the support item. The maintenance code entered in the third position indicates one of the following levels of maintenance.

| <u>Code</u> | <u>Application/Explanation</u>  |
|-------------|---|
| O           | Support item is removed, replaced, used at the organizational level of maintenance.   |
| F           | Support item is removed, replaced, used at the following intermediate levels:<br><br>USAF - Intermediate (*)<br>USA - Direct Support (*)  |
| H           | support item is removed, replaced, used at the following intermediate levels:<br><br>USAF - Intermediate (*)<br>USA - General Support (*) |

**NOTE**

**For USAF and the USA Safeguard Program, only Code "F" will be used to denote intermediate maintenance. On joint programs use of either code F or H by the joining service will denote intermediate maintenance USAF and the USA Safeguard program.**

| <u>Code</u> | <u>Application/Explanation</u>   |
|-------------|--|
| D           | Support items that are removed, replaced, used at depot only:<br>USAF - Depot, Mobile Depot and Specialized Repair Activity<br>USA - Depot, Mobile Depot and Specialized Repair Activity |

(b) REPAIR (FOURTH POSITION): The maintenance code entered in the fourth position indicates whether the item is to be repaired and identifies the lowest maintenance level with the capacity to perform complete repair (i.e., all authorized maintenance functions).

| <u>Code</u> | <u>Application/Explanation</u>   |
|-------------|--|
| O           | The lowest maintenance level capable of complete repair of the support item is the organizational level.   |
| F           | The lowest maintenance level capable of complete repair of the support item is the following intermediate level:<br><br>USAF - Intermediate (*)<br>USA - Direct Support (*)  |
| H           | The lowest maintenance level capable of complete repair of the support item is the following intermediate level:<br><br>USAF - Intermediate (*)<br>USA - General Support (*) |

**NOTE**

**For USAF and the USA Safeguard Program, only Code "F" will be used to denote intermediate maintenance. On joint programs use of either code F or H by the joining service will denote intermediate maintenance USAF and the USA Safeguard program.**

|   |  |
|---|--|
| D | The lowest maintenance level capable of complete repair of the support item is the depot level.<br><br>USAF - Depot, Mobile Depot and Specialized Repair Activity<br>USA - Depot, Mobile Depot and Specialized Repair Activity |
| L | Repair restricted to designated Specialized Repair Activity.   |
| Z | Nonreparable. No repair is authorized.   |

| <u>Code</u> | <u>Application/Explanation</u>  |
|-------------|---|
| B           | No repair is authorized. The item may be reconditioned by adjusting, lubricating, etc., at the user level. No parts or special tools are procured for the maintenance of this item. |

(3) Uniform recoverability codes applicable to all Military Services: GENERAL: Recoverability codes are assigned to support items to indicate the disposition action on unserviceable items. The recoverability code is entered in the fifth position of the Uniform SMR code Format as follows:

| <u>Recoverability Codes</u> | <u>Definition</u>  |
|-----------------------------|--|
| Z                           | Nonreparable item. When unserviceable, condemn and dispose at the level indicated in column 3.   |
| O                           | Reparable item. When uneconomically repairable, condemn and dispose at organizational level.   |
| F                           | Reparable item. When uneconomically repairable, condemn and dispose at the following intermediate levels:<br><br>USAF - Intermediate (*)<br>USA - Direct Support (*) |
| H                           | Reparable item. When uneconomically repairable, condemn and dispose at the following levels:<br><br>USAF - Intermediate (*)<br>USA - General Support (*)             |

#### NOTE

**For USAF and the USA Safeguard Program, only Code "F" will be used to denote intermediate maintenance. On joint programs use of either code F or H by the joining service will denote intermediate maintenance USAF and the USA Safeguard program.**

|   |  |
|---|--|
| D | Reparable item. When beyond lower level repair capability, return to depot. Condemnation and disposal not authorized below depot level.  |
| L | Reparable item. Repair, condemnation and disposal not authorized below depot/Specialized Repair Activity level.  |
| A | Item requires special handling or condemnation procedures because of specific reasons (i.e., precious metal content, high-dollar value, critical material or hazardous material). Refer to appropriate manuals/directives for specific instructions. |

d. (ALL) National Stock Number (Column 4). Indicates the National Stock Number assigned to the item and will be used for requisitioning purposes.

e. (ALL) Description, (Column 5). Indicates the Federal item name and any additional description of the item required. The abbreviation "w/e" when used as part of the nomenclature, indicates the National Stock Number, includes all armament, equipment, accessories and repair parts issued with the item. A part number or other reference number is followed by the applicable five digit Federal Supply Codes for Manufacturer. If two reference numbers and Federal Supply Codes for manufacturer are listed, the first listing refers to the Department of Defense Drawing Number, the second listing refers to the actual part manufacturer. Items that are included in kits and sets are listed below the name of the kit or set with the quantity of each item in the kit or set indicated in the quantity incorporated in unit column.

f. (ALL) Unit of Measure (U/M), (Column 6). A two character alphabetic abbreviation indicating the amount or quantity of the item upon which the allowances are based, e.g., ft, ea, pr, etc.

g. (ALL) Quantity Incorporated in Unit, (Column 7). Indicates the quantity of the item used in the assembly group. A "V" appearing in this column in lieu of a quantity indicates that a definite quantity cannot be indicated (e. g., shims, spacers, etc.).

**4. SPECIAL INFORMATION**

a. Usable on codes are shown in the description column. Uncoded items are applicable to all models and/or serial number range. Identification of the usable codes used in this publication are:

| Code | <u>Used On</u>                     |
|------|------------------------------------|
| A    | Model MEP-017A-NSN6115-00-017-8240 |
| B    | Model MEP-022A-NSN6115-00-017-8241 |

b. Army Organizational Maintenance personnel will extract the items which they require from Section II, 3rd or 4th position of column 2 of the Direct and General Support RPSTL. Parts which are manufactured or assembled at a higher level than that authorized to install the part are indicated by the use of higher level code in the source column.

c. Stockage Information. (Army) The basis of issue for authorized tools, test and support equipment is the number of end items of equipment supported and the number of maintenance personnel allocated to perform the required maintenance operations as follows:

(such as, soldering iron per five MOS284.1 supporting 1-15 Radio Set AN/ARC-51).

d. Air Force Stockage information is contained in Initial Supply Support Lists issued separately from this publication by SMAMA in accordance with ARM-67-1, part 1, Chapter 12.

e. Army Stockage is demand based in accordance with AR 710-2. Repair parts listed in this publication represent those authorized for use at indicated maintenance levels and will be requisitioned on an as-required basis until stockage is justified in accordance with AR 710-2.

**5. HOW TO LOCATE REPAIR PARTS**

a. (ALL) When National Stock Number or Reference Number is Unknown:

(1) First. Using the table of contents, determine the functional group, i.e., batteries and related parts, exhaust and breather pipes, within which the repair part belongs. This is necessary since illustrations are prepared for functional groups, and listings are divided into the same groups.

(2) Second. Find the illustration covering the functional group to which the repair part belongs.

(3) Third. Identify the repair parts on the illustration and note the illustration figure and item number of the repair part.

(4) Fourth. Using the Repair Parts Listing, find the figure and item number noted on the illustration.

b. (ALL) When National Stock Number or Reference Number is known:

(1) First. Using the index of National Stock Numbers and Reference Numbers find the pertinent National Stock Number or Reference Number. The index is in ascending NSN sequence followed by a list of reference numbers in alpha-numeric sequence, cross-referenced to the illustration figure number and item number.

(2) After finding the figure and item number, locate the figure and item number in the repair parts list.

## 6. ABBREVIATIONS

## 7. REPORTING OF ERRORS

You can help to improve this manual by calling attention to errors and by recommending improvements. Your letter, DA Form 2028 (Recommended Changes to Publications), and/or DaForm 2028-2 (Recommended Changes to Equipment Technical Manuals), may be used. Copies of DA Form 2028-2 are attached in the back of the manual for your use. Please mail your recommended changes directly to:

a. Army DA Form 2028, direct to: Commander, U.S. Army Troop Support Command, ATTN: AMSTR-MCTS, 4300 Goodfellow Blvd., St. Louis, MO 63120-1798. A reply will be furnished directly to you.

b. Air Force AFTO Form 22 in accordance with T.O.00-5-1, direct to: Commander, Sacramento Air Material Area, ATTN: MMEDT, McClellan AFB, California 95652.

**By Order of the Secretaries of the Army and the Air Force:**

**JOHN A. WICKHAM, JR.**  
*General, United States Army*  
*Chief of Staff*

**Official:**

**R. L. DILWORTH**  
*Brigadier General, United States Army*  
*The Adjutant General*

**CHARLES A. GABRIEL, General USAF**  
*Chief of Staff*

**Official:**

**EARL T. O'LOUGHLIN**  
*General, USAF, Commander, Air Force*  
*Logistics Command*

**DISTRIBUTION:**

To be distributed in accordance with DA Form 12-25A, Organizational, and Direct Support and General Support Maintenance Requirements for Generator Set, Gas Driven, Tactical, Skid Mounted, 120/240V, 1 PH, 120/208V, 3PH, 5KW (60HZ: MEP-017A; 400HZ: MEP-022A).

THEN... JOT DOWN THE DOPE ABOUT IT ON THIS FORM, CAREFULLY TEAR IT OUT, FOLD IT AND DROP IT IN THE MAIL!

SOMETHING WRONG WITH THIS PUBLICATION?

# The Metric System and Equivalents

## Linear Measure

1 centimeter = 10 millimeters = .39 inch  
 1 decimeter = 10 centimeters = 3.94 inches  
 1 meter = 10 decimeters = 39.37 inches  
 1 dekameter = 10 meters = 32.8 feet  
 1 hectometer = 10 dekameters = 328.08 feet  
 1 kilometer = 10 hectometers = 3,280.8 feet

## Weights

1 centigram = 10 milligrams = .15 grain  
 1 decigram = 10 centigrams = 1.54 grains  
 1 gram = 10 decigram = .035 ounce  
 1 dekagram = 10 grams = .35 ounce  
 1 hectogram = 10 dekagrams = 3.52 ounces  
 1 kilogram = 10 hectograms = 2.2 pounds  
 1 quintal = 100 kilograms = 220.46 pounds  
 1 metric ton = 10 quintals = 1.1 short tons

## Liquid Measure

1 centiliter = 10 milliliters = .34 fl. ounce  
 1 deciliter = 10 centiliters = 3.38 fl. ounces  
 1 liter = 10 deciliters = 33.81 fl. ounces  
 1 dekaliter = 10 liters = 2.64 gallons  
 1 hectoliter = 10 dekaliters = 26.42 gallons  
 1 kiloliter = 10 hectoliters = 264.18 gallons

## Square Measure

1 sq. centimeter = 100 sq. millimeters = .155 sq. inch  
 1 sq. decimeter = 100 sq. centimeters = 15.5 sq. inches  
 1 sq. meter (centare) = 100 sq. decimeters = 10.76 sq. feet  
 1 sq. dekameter (are) = 100 sq. meters = 1,076.4 sq. feet  
 1 sq. hectometer (hectare) = 100 sq. dekameters = 2.47 acres  
 1 sq. kilometer = 100 sq. hectometers = .386 sq. mile

## Cubic Measure

1 cu. centimeter = 1000 cu. millimeters = .06 cu. inch  
 1 cu. decimeter = 1000 cu. centimeters = 61.02 cu. inches  
 1 cu. meter = 1000 cu. decimeters = 35.31 cu. feet

## Approximate Conversion Factors

| To change     | To                 | Multiply by | To change          | To            | Multiply by |
|---------------|--------------------|-------------|--------------------|---------------|-------------|
| inches        | centimeters        | 2.540       | ounce-inches       | newton-meters | .007062     |
| feet          | meters             | .305        | centimeters        | inches        | .394        |
| yards         | meters             | .914        | meters             | feet          | 3.280       |
| miles         | kilometers         | 1.609       | meters             | yards         | 1.094       |
| square inches | square centimeters | 6.451       | kilometers         | miles         | .621        |
